Production Notes

Take three desperate housewives, add three unloving husbands—and chill. That's the recipe of Michele Lowe's new comedy, *The Smell of the Kill*. When The SPACE asked ArtBarn last fall to bring a comedy to New Richmond in March, this is what we chose. It is always a challenge to produce a play you have never seen. As far as we know, we are the first theatre group to produce this offering in our part of the Midwest. It is not usual ArtBarn fare so we have truly enjoyed developing the characters and deciphering Ms. Lowe's delightful script. It is a little *Arsenic and Old Lace* mixed with the popular TV show, *Desperate Housewives*—what a winning combination!

ArtBarn is so grateful to collaborate with The SPACE again this year—we enjoy the heat—and the hospitality that is extended to our organization. Enjoy the show! We have quite the season planned for you in New Richmond and Osceola. Watch both of our websites for information on upcoming programming, Ellen & Neil
